Re: Green Mountain Power Corporation Proposed Photovoltaic Solar System Project,
Berlin, VT

Jeff,

I reviewed the final Site Plan for the Proposed Photovoltaic Solar System Project in Berlin, dated August 13, 2009. The information provided on this site plan shows the facility located outside of the FEH corridor. It is our position that the proposed project will not increase erosion hazards.

Please contact Rebecca Pfeiffer at ANR's River Management Program for a determination of inundation hazards pertaining of Act 250 Criterion 1(D).

Kari
